2023

Maharshi Dayanand University, Rohtak, established in 1976 as residential University with the objective of promoting inter-disciplinary higher education and research with special emphasis on studies of environmental, ecological and life sciences, is making rapid progress to emerge as a leading educational institution of the nation. Now it is a teaching-cum-affiliating University with a formidable track record in academics, research, literacy and cultural activities, and sports. Currently, there are 38 Post-Graduate Departments and 11 Faculties in the University. The overall progress made by the University in all fields resulted in the University receiving the 'A+' grade from NAAC in March 2019. University, with its large campus, provides excellent infrastructural facilities and necessary student support services, benefitting the students. The University has entered into student support services, benefitting the students. The University has entered into national and international level strategic tie-ups with academic and research organizations for joint academic and research programmes. The University is all set to emerge as a pioneer University with overall excellence and global outlook and deep commitment towards social and community causes in time to come.

Department of Microbiology was established in June, 2009, with objectives like providing education and training facilities, carrying out application oriented research, developing in-house technologies and promoting consultancy services in various areas of Microbiology. The department offers Ph.D. programme and two M. Sc. Courses in Microbiology & Microbial Biotechnology. Key areas of research includes industrial enzymes, biofuels, medical microbiology, plant microbe interaction, probiotics, bioremediation and bioprocess engineering. More than >200 international research articles in high impact journals have been published in last 5 years and have fetched research projects with over Rs.10 crores from different government funding agencies. The department boasts about Dr. Krishna Kumar Sharma, Head, Dept. of Microbiology, to bag the Best Researcher Award, INSA Fellowship and been facilitated twice by the Governor for Best Teaching and Research Activities. Additionally, the department has fetched grants from DST-FIST and European Union for enhancing women entrepreneurship. The department has also organized two MHRD sponsored GIAN Programs.

Association of Microbiologists of India (AMI), established in 1938 is one of the oldest and reputed scientific organizations of the country. Since its inception, it has contributed significantly towards the development of microbiology, particularly in areas of research and teaching in country. The Association publishes a quarterly journal, "Indian Journal of Microbiology" for the last 60 years and holds a National convention annually at one of the well-established centers of microbiology in the country. At present, there are more than 5392 life and annual members and about 450 corporate members of the Association. Indian Journal of Microbiology, by publishing peer reviewed original research findings and research reviews from researchers in India and abroad, has acquired a respectable status among National and International scientific research periodicals in the world.

2023

Dear Delegates, it gives us immense pleasure to extend our cordial invitation for the forthcoming 63rd Annual Conference of Association of Microbiologists of India (AMI-2023), along with hands on training sessions and workshops, organized by the Department of Microbiology, MDU, Rohtak, India. The theme for AMI-2023 would be “Microbial technologies for sustainable biosphere”. The conference is an attempt to provide a common forum to discuss, deliberate and propose solutions on various aspects related to the theme, with the ultimate aim of devising strategies to explore the role of microorganism in sustainable development for human welfare. The conference organizers proudly announce assembly of Padamshree and Shanti Swarup Bhatnagar Awardees as key note speakers among many other distinguished National and International lead speakers. Special attention has been given to organize Pre-Conference Workshop/Training sessions in the promising areas of Genome sequencing and *In-silico* tools in microbial research apart from special session for Women Entrepreneurship training by MSME, Gov. of India and Federation of Indian Chambers of Commerce & Industry.

Themes at a Glance

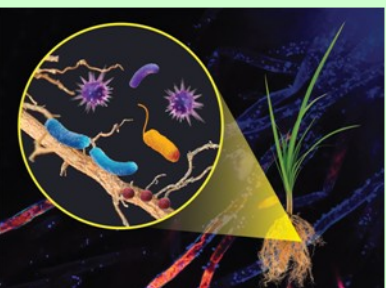

- Food and Industrial Microbiology
- Microbial Therapeutics
- Anti-microbial Resistance
- Microbial Ecology and Systematics
- Microbiology for mankind
- Microbiomics and Multi-omics
- Host-Microbial Interactions
- Microbial Nanotechnology
- Primary & Secondary agriculture
- Microbial technologies

Special Sessions

- Women in Science
- Novel Contributions by Shanti Swarup Bhatnagar Awardees
- MSME's Entrepreneurial Support System
- Environmental Microbial Biotechnology
- Vaccine for life management
- Poster pitching
- FICCI's Plans & Programmes
- Protecting your innovations

Pre-Conference Workshop

- Genome Sequencing
- Phylogenomics
- High end analytical Tools in Microbiology
- Molecular Modeling & Drug Designing
